BS Information Technology
STI College Calamba

LANGUAGES

English, Filipino, Bisaya

SUMMARY

Software engineer with eight years of production experience across enterprise cloud ERP, US real-estate SaaS and Philippine small businesses. I start from the business problem, build the system end to end, deploy it and support it. Former graphic designer, so I care how software looks and reads.

EXPERIENCE

Software Engineer — Infor PSSC
Feb 2022 – Present · Multi-tenant cloud ERP

- Build and maintain Angular features for a global, multi-tenant ERP used by enterprise customers.
- Write automated tests and run validation and verification before releases.
- Support released versions for customers, working with business analysts and product architects across time zones.

Software Engineer — Placester Inc.
Feb 2020 – Oct 2021 · US real-estate SaaS for agents and brokerages

- Built the NestJS entitlement service that links Zuora subscriptions to the features each customer can use.
- Connected client WordPress sites to the core Java (Spring Boot, Jetty) services through PHP integrations.
- Delivered front-end work in Angular and TypeScript on AWS (serverless and EC2) with Codeship CI/CD.

Full-stack Software Engineer — Microbitworx Solution
Dec 2018 – Feb 2020 · Laguna

- Built a work-in-progress tracking system for a manufacturing company and a service management system in CodeIgniter.
- Designed and built the Alpha Laboratory website; deployed systems on local and cloud servers.
- Trained client staff and handled critical support; managed Endian firewall monitoring.

Graphic Designer — Microbitworx Solution
Jun 2015 – Jan 2016 · Laguna

- Designed logos, brochures, tarpaulins, billboards and web graphics in Photoshop.

PRODUCTS & FREELANCE

SwiftStay — Founder
swiftstay.uk · Short-term rental marketplace

- Booking platform for Philippine transient houses with GCash, Maya, QRPh and GrabPay checkout and iCal sync with Airbnb and Booking.com.

Benepisyo — Creator
jjorge1999.github.io/benepisyo · Free civic app

- Tagalog-first government benefits finder covering all 1,642 cities and municipalities, built with Angular and Cloudflare Workers.

Thamara's Lechon & Carinderia — Client
Agusan del Sur · Analysis and marketing

- 30-day income and expense review showing where profit really comes from; Facebook ad management and automated posting.
